We’ve Got This – It’s What We Do!

Metro is prepared to help by providing professional cleaning services for buildings and facilities exposed to COVID-19. As a Disaster Restoration Company since 1979 – It’s What We Do! Metro can help reduce the risk of infection or illness and downtime in operations.

Our top priority is the safety and well-being of our clients and employees. For an additional cover of protection, an independent, third-party Industrial Hygienist will develop a protocol for the cleaning and treatment recommended, which Metro will follow. We will only use products suggested and approved by the Centers of Disease Control and Prevention (CDC) and follow their guidelines.

In an effort to slow the spread of COVID-19 the CDC recommends that businesses perform routine environmental cleaning including “all frequently touched surfaces in the workplace”.

Should you need any assistance, advice on applications or cleaning services, Metro Disaster Specialists is here to help. Contact us at 501-758-2845
