Measures Taken to Protect Exposing Tenants

Protecting our Frontline Technicians

Detection and Containment
- Stay home if you have any symptoms
- Record potential exposure
- Test and quarantine

Social Distancing Measures
- Providing PPE (face mask)
- Modified dispatching process
- Temporarily suspended customer signature requirement on tickets
- Utilizing Independant Service

Sanitization
- Mobile hand washing stations in vans
- Washing hands before and after each service visit
- Using hand sanitizer
Preparing The Building

1. Every Building's Circumstances Vary
   - Was the equipment turned off?
   - Will tenants want extra cleaning for peace of mind?

2. Frequently clean and disinfect high-touch surfaces like push buttons and handrails

3. Be mindful of cleaning the push buttons, there is electronic equipment behind the panel!

4. There are products to help
   - Larger exhaust fans
   - UV disinfectant for escalator handrails and elevators
Preparing Tenants for Social Distancing

1. Encourage people to take the stairs
2. Don’t ride a crowded elevator
3. Tactfully ask others to wait if the elevator is full
4. Don’t lean against the walls
5. Cover fingers with cloth or gloves
6. Wash hands after each trip
